ORGANIC, VEGAN & BIO PRODUCTS

The world is changing and making healthier choices and reducing the amount of waste produced has become a major requirement for stewardesses and housekeepers. We listened to our clients and sourced a wide range of products to help you make the changes to improve your environment and work within new health and safety standards.

We have passion for the marine world and we want to help spread awareness of the importance of marine conservation through improved awareness and education. Our Promise is to assist the Palma Aquarium Foundation who in 2014 began coordinating the rescue and rehabilitation for protected marine animals in the Balearic Islands and has saved hundreds of Turtles & Cetaceans.

HOW CAN YOU HELP?

We have noticed the amounts of interior and crew items that are discarded when they are no longer needed by Yachts. These items still have a re-sale value and we offer to take these to sell locally on your behalf and all of the proceeds of these sales will be passed to the Foundation to aid them in their wonderful efforts. We will keep you informed of how much you helped to raise and the benefits it made to the foundation.

Who knows on your travels you may even see one of the very Turtles you helped to save!!!
